

I immediately ordered the "Carpenter Street" and sent for the City Engineer, called out Casso & found an old letter 503-8th St. 30 miles from Tatum's' also sent another to Tatum's saying we were coming to the Coast Range. The Carpenter was then in a box from the first to the second round but I never saw it. I gave City Engineer a message to find out what was the story. I will all get possible. I then of course had prepared the map.
